If after reading this section you determine that you are eligible, you qualify for Plan A or Plan B. If you are purchasing Plan A, or if you are under the age of 35 and purchasing Plan B, please complete Parts B, C and D.

Coverage Options

Single-Trip Coverage – This plan provides emergency medical coverage for one trip only. Coverage begins on the *effective date* and ends on the termination date as specified on your application and your confirmation of insurance documents. Single-Trip Coverage also includes Travel Accident Coverage for up to \$50,000 CDN in the case of accidental bodily injury or death.

Trip Interruption Coverage – This is an optional benefit and the additional required premium must be paid for coverage to be effective. This benefit covers the non-refundable and non-transferable portion of your trip, should it be interrupted and you are required to return to your home country due to a covered event concerning yourself, an immediate family member or a travel companion.

Definitions

Italicized words have a specific meaning. Please refer to these definitions when completing the Medical Questionnaire.

Activities of daily living means eating, bathing, using the toilet, changing positions (including getting in and out of a bed or chair) and dressing.

Change in medication means the medication dosage or frequency has been reduced, increased or stopped, and/or new medications have been prescribed. We do not mean a change from a brand-name drug to an equivalent generic drug of the same dosage, and a routine adjustment in the dosage of your medication, as a result of your blood levels only, if you are taking Coumadin (warfarin) or insulin and are required to have your blood levels tested on a regular basis and your *medical condition* remains unchanged.

Effective date means the date on which your coverage starts.

Hospital means a facility that is licensed as a *hospital* where in-patients receive medical care and diagnostic and surgical services under the supervision of a staff of physicians with 24-hour care by registered nurses. A clinic, an extended or palliative care facility, a rehabilitation establishment, an addiction centre, a convalescent, rest or nursing home, home for the aged or health spa is not a *hospital*.

Medical condition means injury, illness or disease; symptom(s); complication of pregnancy within the first 31 weeks of pregnancy; a mental or emotional disorder that requires admission to a *hospital*, or acute psychosis.

Pre-existing condition means a *medical condition* that exists before your *effective date*.

Stable medical condition means that:

- you have not had a new symptom(s); and
- existing symptom(s) have not become more frequent or severe; and
- your physician has not found that your *medical condition* has become worse; and
- no test findings have shown that your *medical condition* may be getting worse; and
- you have not received, been prescribed, taken or had a physician recommend any new medication, or any *change in medication*; and
- you have not received, been prescribed, or had a physician recommend any new *treatment* or any change in *treatment*; and
- you have not been hospitalized or referred to a specialist or specialty clinic; and
- your physician has not advised you to see a specialist or to have further tests, and you have not undergone testing for which you have not yet received the results.

Treatment means a medical, therapeutic or diagnostic procedure prescribed, performed or recommended by a licensed medical practitioner, including but not limited to prescribed medication, investigative testing and surgery related to any illness, injury or symptom.
